SENTINEL & MEPF MEMBER INVESTMENT CHOICE

NAME CHANGE OF THE CASH PORTFOLIO

To more accurately describe this portfolio and its underlying assets, the Cash Portfolios name has been changed to the **Money Market Portfolio**.

The assets invested in by this portfolio include, amongst others, Cash, Call Deposits, Treasury Bills, Bankers Acceptances and Negotiable Certificates of Deposit. This asset mix is designed to maximise returns over time when compared to a pure cash investment. The name Money Market Portfolio is, therefore, more appropriate.

Members are reminded that:

- The Money Market Portfolio does not form part of the Life Stage Model.
- This portfolio is specifically designed for risk-averse investors who require a short-term low risk investment, such as members who require their capital to be mostly protected shortly before retirement.
- The option to investment in this portfolio must be exercised in writing by completing the Member Investment Choice Option Form.

Please contact the Funds if you require any further information regarding Member Investment Choice.
